

**MODIFICATION # 13
TO
CONTRACT NUMBER 2001-035
BETWEEN THE
COMMONWEALTH OF VIRGINIA
AND
MOTOROLA, INC.**

This MODIFICATION #13 is an agreement between the Commonwealth of Virginia through its Department of State Police, hereinafter referred to as "State" or "Commonwealth," and Motorola, Inc., hereinafter referred to as "Motorola," which modifies Contract Number 2001-035 (the "Contract") between the parties. This Modification #13 is hereby incorporated into and made an integral part of the Contract effective July 13, 2004. This Modification will be effective as of the last date signed below.

The purpose of this Modification #13 is to increase the Contract Price to: (1) pay for the costs of additional Crash-Trucks utilized while performing installation work in the Elizabeth River Downtown Tunnel, as required by the Virginia Department of Transportation ("VDOT"); (2) provide 213 additional disguised Subscriber antennas on select vehicles for the Department of State Police ("VSP") and other agencies; and (3) pay for temporary power costs at twelve (12) of the twenty (20) Division One Sites, provided by Motorola.

Both parties agree to the following:

1. Description of Crash-Truck Requirement.

A. Overview.

VDOT has required two (2) additional Crash-Trucks for each lane that must be closed to vehicular traffic during work performed at the Elizabeth River Downtown Tunnel, even though only one (1) Crash-Truck is required per lane closure, at the five (5) other tidewater tunnels. The Crash-Trucks provide a safety barrier for tunnel workers in the lanes leading up to and inside the tunnel. Motorola has rented two (2) Crash-Trucks for five (5) additional days and drivers were supplied by Motorola's subcontractor, Powerwave, in order to meet this new VDOT requirement.

B. Modification of Contract Price.

For the additional services provided by Motorola, as described in Section 1.A., \$26,557.00 is added to the Contract Price.

2. Description for the Purchase of Additional Disguised Subscriber Antennas.

A. Overview.

The Commonwealth has requested 213 additional disguised Subscriber antennas on select vehicles for the VSP and other agencies as detailed in Attachment A, which is attached hereto and fully incorporated herein.

B. Modification of Contract Price.

For the additional disguised Subscriber antennas to be provided by Motorola, as described in Section 2.A., \$57,183.00 is added to the Contract Price.

3. Description of Temporary Power and other Rework

A. Overview.

The Commonwealth is contractually required to provide commercial power to Sites. When construction was complete for the twenty (20) Sites listed in Section 3.B., Motorola provided generators, fuel, maintenance, and tank reworks to ensure temporary power until commercial power was available at twelve (12) sites.

B. Modification of Contract Price.

For the additional equipment and services provided by Motorola, as described in Section 3.A., \$119,342.91 is added to the Contract Price.

Site No.	Site	Temporary Generators and Fuel	Propane Refills	*Maintenance Costs	**Tank Reworks	Total
1102	1ST. DIVISION HQ					\$0.00

Subtotals		\$55,748.43	\$43,250.15	\$18,345.20	\$25,729.00	\$143,072.78
One (1) Motorola Worker Week						\$6,000.00
Total						\$149,072.78
Negotiated Discount = 17%						(\$25,342.37)
Final Negotiated additional discount						(\$4,387.50)
Modification Section 3A Total						\$119,342.91

*Maintenance Costs include the run time service for every 200 hours.

**Tank Rework Requirements: The original design had the buried and secured propane tank being placed in and surrounded by sand. At three sites requiring the Tank Rework, all were found to have an exceptional high water table. During times of rain, this resulted in the sand containing the water. Water in the sand prevented the propane regulator from capturing the required air to allow the gas to flow. Pyramid Network Services then, with Motorola's approval, dug out the tank and removed all sand. The required excavation was 5 feet outside the tank. The fill was discarded and replaced with pea gravel. This then allowed the regulator to capture air required for gas flow. All of this was outside the original scope of the Contract.

The costs are for the labor and material to perform this work. The Williamsburg site was problematic in that the compound is so tight that the excavation had to be done by hand and not by machinery.

Note: In the future, whenever there is a cost adjustment due to re-work or generator issues, Motorola will advise the Commonwealth of a cost estimate in advance and provide any alternatives if known. Motorola will wait for written authorization from either the STARS PD or PCO before any additional cost work is started. The Commonwealth may complete the work at their option.

4. Contract Price Adjustments.

Original Contract Value:	\$329,673,699.00
Amount of Previous Modifications numbered 1 through 8 ¹	(\$1,540,046.39)
Amount of Modifications numbered 9, 10, 11, and 12:	Pending
Modification #14	\$588,931.34
This Modification #13:	\$203,082.91
New Contract Price:	\$328,925,666.86

5. Completion Date Adjustments.

None.

¹ Modification #8 was cancelled by the Commonwealth.

6. Milestone Payments.

In accordance with this Modification #13, the Contract Milestone Payment for the equipment and services described herein is as follows:

MONTH AND QUARTER	MILESTONE NAME	CONTRACT MILESTONE	MODIFICATION NO. 13 MILESTONE	TERMS
April, Q2 '06	Modification #13	N/A	\$203,082.91	Due in full upon execution of Modification #13

The foregoing is the complete and final expression of the parties' agreement to modify Contract 2001-035 and cannot be modified, except by a writing signed by duly authorized representatives of both parties. If there are any inconsistencies between the provisions of this Modification #13 and the provisions of the Contract, the provisions of this Modification #13 will prevail.

ALL OTHER TERMS AND CONDITIONS OF THE CONTRACT REMAIN UNCHANGED AND SHALL REMAIN IN FULL FORCE.

PERSONS SIGNING THIS CONTRACT MODIFICATION ARE AUTHORIZED REPRESENTATIVES OF EACH PARTY TO THIS CONTRACT AND ACKNOWLEDGE THAT EACH PARTY AGREES TO BE BOUND BY THE TERMS AND CONDITIONS OF THIS CONTRACT MODIFICATION.

						SUBTOTAL	\$51,183.00
						***One Motorola Worker Week	\$6,000.00
						Modification #13 Total	\$57,183.00

***Motorola purchased the disguised antennas AT COST for STARS. There was no mark up on the material since it was a matter of expediency to receive the antennas and not stop vehicle installations. The Motorola mantime cost is for researching the types of vehicles, types of antennas to go on the specific vehicle, obtain a final quotation, cut a purchase order to pay for them, inventory the antennas when they arrived and pay the supplier. All of these activities/services were out of scope of the Contract.
